ACADEMIC PROJECT

Web Development

Zinza Garlic Sauce

Brief: The website focuses on simplicity and incorporates features such as product information, online ordering, videos, testimonials, professional pictures, and a combination of green and yellow color backgrounds. With these features, ZINZA Garlic Sauce aims to create a seamless and engaging online experience, building brand awareness, and enticing customers to explore, order, and savor their high-quality garlic sauces.

Technologies: HTML, CSS, JavaScript, PHP

Android Developer	Uniotech Solution	Sep 2018- Mar 2021

Fitness Base Camp

Brief: Workouts and progress tracking tools for all ages and fitness levels. Built and supported by trainers and decorated athletes. Backed by industry professionals providing new workouts weekly coupled with a social media platform to keep you, your family, and friends motivated along your fitness journey.

Technologies: Android, PHP
Roles & Responsibility: Application design and integration of web services and App publishing on the play store.
App Store Link: https://play.google.com/store/apps/details?id=com.fitnessbasecamp.www

Saladi Contact Directory

Brief: The Saladi Village app is a community-centric platform that allows users to access contact numbers and personal details of fellow villagers. With easy filtering options based on blood group, city, education, and occupation, villagers can connect with each other effortlessly. Stay informed with daily updates on village news and stories and receive timely push notifications for upcoming events and announcements, fostering a stronger sense of community and unity.

Technologies: Android, Firebase
Roles & Responsibility: Application design and integration of web services and App publishing on the play store.
